THE

ELECTRICAL WORLD

A REVIEW OF CURRENT PROGRESS IN ELECTRICITY
AND ITS PRACTICAL APPLICATIONS

VOLUME LX

JULY 6 TO DECEMBER 28, 1912

NEW YORK

ELECTRICAL WORLD

INDEX TO VOLUME LX

GENERAL INDEX

Entries from the Digest of Current Electrical Literature are indicated by D (Digest) and D R (Digest Reference).

A

Accidents, Electrical. By G. S. Ram, (D.) 161
Advertising by central stations:
——Billboard advertising, San Francisco, *456
——Boston window-lighting display, 719
——Co-operative advertising, 1391
——Electric vehicles, *941
——Fashion week, Oklahoma City, *830
——Float in civic celebration, Elwood, Ind., *720
——Galveston, Tex., *879
——Match-less light, 1151
——Page in newspaper once a month, Twin Falls, Idaho, 1099
——Sharing the community's burden, 53
——Traveling electric show, Albany Southern R. R., *509
——Window display, 54
County fair ideas, *779
"Live" display, Emporia, Kan., 1046
Livingston, Mont., *103
Advertising, Electric:
——Shoe cleaner, Motor-driven, as window attraction, *1101
——Window display devices, *829
Agricultural communities, Electricity in:
——Amount of energy required for electro-culture, (D.) 674
——Benton Harbor, Mich., Supply to farm customers over one wire with ground return, *259
——Dayton, Ohio, Central-station service on farm of W. Stroop, *250
——Dayton, Ohio, Rural service near, 259
——Denmark, Data for 21 stations, 1207
——Discussion. By C. H. Miles, 935
——Discussion, Ohio Electric Light Association, 237
——Farm of Dr. Robert Cassels, Rochester, Mich., 202
——Farm exhibit of Boston Edison Co., *152
——Ground-return distribution systems, 291
——Pacific Power & Light Co., 552
——Practical applications, *69
——Report to Association of French Central Stations. By P. Lecler, (D. R.) 518
——Stockton, Cal., Rural service to 700 farmers near, 508
——Uses of electrical energy in farming, 721
——Würtemberg, Germany. By H. Buggeln, (D.) 1107
Air compressors, Motor-driven:
——Allis-Chalmers gearless, *842
——Platt Iron Works, for torpedo service, *1225
Alarm to indicate operation of remote rectifier set, St. Louis, *668
Alloys:
——Electric conductivity. By A. E. Whitford, (D.) 573
——Magnetic properties, (D.) 160
Alpha rays:
——Absorption and scattering, Theory of. By C. G. Darwin, (D.) 64
——Chemical action produced by alpha particles. By S. C. Lind, (D.) 1057
——Rays of Polonium. By V. E. Pound, (D.) 733
Alternating-current phenomena, Vector representation of. By A. A. Nims, *660; Comment, 638
Alternating current systems, Grounded versus unearthed neutrals. By J. S. Peck, (D.) 1328
Alternators. (See Generators)
Aluminum, Kayser and Cowles process. By A. H. Cowles, (D.) 788
Aluminum conductors. (See Wires and wiring)
American Electric Railway Association, Convention, 756, 814
American Electrochemical Society, 437
American Institute of Chemical Engineers, Meeting, 1359
American Institute of Consulting Engineers, 1124
American Institute of Electrical Engineers:
——Affairs, 809, 1026, 1296
——Convention, 1, 4, 13, 1078
——Meetings, 84, 342, 437, 809, 1178
——Nominations for officers, 1241
——Patent commission recommended by, 1178
American Physical Society, 1180
American Society of Mechanical Engineers, Convention, 1178
American Telegraph Typewriter Co., 1359
American Telephone & Telegraph Co.:
——Alleged Sherman Act violation, 1084
——Pension system, 1028; Comment, 1023
Ammeters:
——New design. By Goldschmidt, (D.) 788
——Sensibility and accuracy of alternating-current. By M. G. Newman, 31
Ampere-hour meters, Langamo distant-dial, *166
Anemometer for heating plant, Home-made, *507
Anthracite coal situation, 1128
Appalachian Power Co., New River, Virginia, *1141; Comment, 1119
Appliance sales. (See Central-station business)
Appraisal of intangible values in public utilities. By W. J. Hagenah, 866
Arc between carbon electrodes, Starting. By A. Occhialini, (D.) 459
Arc circuits, Test lamps for all-day supervision, *667
Arc lamps:
——Candle-power distribution curves, Photographic method for recording. By Ives and Luckiesh, *153; Comment, 131
——Converting inclosed-arc into flaming-arc, *624
——Cradle clamp for hanging lamps, *1214
——Feeding mechanism, Steinhert patent (D.) 949
——Flame:
Carbon patent. By Passavant, (D.) 517
German, New, (D.) *110
Johnson & Phillips long-burning, *326
Status and future possibilities. By W. Hechler, (D. R.) 367
Three-phase lamp development, 228
——High-candle-power lamps, Discussion in Berlin, (D.) 62
——Hughes non-magnet-type, *213
——Indirect lighting, Armorduct, *327
——Moving-picture arcs, 513, 948
——Radiant efficiency of the carbon arc. By W. H. Damon and W. J. Enders, *502; H. E. Ives, 670
——Regulation of electrodes, (D. R.) 414
——Three-phase, Schaeffer. By W. Wedding, (D.) 61, 414
Arc projectors for electric vehicles. By R. E. Neale, (D. R.) 618
Argentine Republic, Electrical progress, 295
Armature teeth, Calculating reluctance of. By David Robertson, (D.) 367
Association of Edison Illuminating Companies, Convention, 342, 540, 594
Association of Iron and Steel Electrical Engineers, 592, 697, 757, 826
Association of Railway Electrical Engineers, Convention, 858, 980
Atomic weights of metals, Electrolytic method of determining. By H. Pecheux, (D.) 271
Atoms, Recoil, in ionized air. By A. F. Kovarik, (D.) 1220
Austria, Electrical industries. By E. Honigmann, (D.) 63
Auto-converter for balancing three-wire systems, (D.) *111
Automobile batteries, 876
Automobile business of central stations:
——Boston station's use of Bailey roadsters, 791
——Chicago's activity, 692
——Chicago discussion, 544
——Comparative costs of horse and electric delivery, 721
——Co-operation of sellers of gas and electric vehicles, 1081
——Cost of operation of trucks, 723
——Memphis, Tenn., Charging service, 721
Automobile lamp chest, 842
Automobiles, Electric:
——Argo roadster, *843
——Autoconverter for. By J. N. Jacobsen, (D.) *1219
——Baker delivery wagon, *1115
——Charging stations in Massachusetts, 910
——Chicago parade, 622
——Church-Field, with two-speed transmission, 463
——Cost of operating trucks, 723
——Delivery wagon for grocer, *881
——Discussions at convention of Electric Vehicle Association, 760
——Fleischmann Yeast Co., *735
——Gear, Efficiency test of, 6
——Lighting. By A. Berthier, (D.) 414
——Masculine car. By J. Robertson, 786
——Performance data, 720
Automobiles, Electric: (Continued)
——Research work at Massachusetts Institute of Technology, 1247
——Salem, Mass., Roadster for central-station service, *165
——Status of, in Southeastern states. By A. N. Bentley, 389
——Trucks:
Lansden, *167
Louisville, Ky., *68
Urban, Kentucky Wagon Mfg. Co., *371
——Waverley runabout, *735
——Woods:
Brougham, *736
Old and new cars, *697
Automobiles, Gasoline-electric. By J. Simey, (D.) 270, 572
——British patent, (D.) 1219

B

Bacteria, Destruction of, by electrolysis, 255
Balancer sets, Direct-current. By A. C. Lanier, (D.) 1106
Balancing three-wire systems, Auto-converter for, (D.) *111
Ball bearings, Hess-Bright, 118
Base-metal thermocouples. By O. L. Kowalke, (D.) 789
Baseball games and the use of electricity, 811
Bath, Electric:
——Accident in, (D.) 1222
——Collapsible, *955
"Bathtub trust" case, Supreme Court decision, 1077, 1078, 1121, 1130
Bells, Electric, Batteryless doorbell, *117
Bergen, Norway, Development of water-power of Samnanger watershed, *1257; Comment, 1241
Beta rays:
——Origin of. By E. Rutherford, (D.) 888
——Reflection of, by thin metal plates. By W. B. Huff, (D.) 951
Big Creek developments, California, *480
Blanket, Electric-heated, *1111
Bleaching liquor. By F. Charles, (D.) 1007
Boiler-feed pumps, Centrifugal, *928
Boiler-level gage, Distant-reading, Wichita, Kan., 1324
Boilers:
——Baffling, Novel, *146
——Corrosion of. By C. E. Stromeyer, (D.) 1106
——Oil-burning, Bellingham, Wash., *144
——Oil-burning, Topeka Edison Co., *50
——Test with hand and stoker firing, Halifax, N. S., 1092
Bolt, Toggle, Chicago Nut Co., *374
Book reviews:
——American Year Book. By F. G. Wickware, 272
——Analytical Mechanics. By E. H. Barton, 64
——Berechnung von Wechselstrom-Fernleitungen. By C. Breitfield, 952
——Claims; Fixing Their Value. By G. F. Deiser and F. W. Johnson, 113
——Commercial Engineering for Central Stations. By A. Williams and E. F. Tweedy, 1109
——Concentration and Control. By C. R. Van Hise, 674
——Costruzioni Elettromeccaniche. By E. Morelli, 890
——Efficiency as a Basis for Operation and Wages. By H. Emerson, 1222
——Electric Circuit. By V. Karapetoff, 952
——Electric Ignition. By F. R. Jones, 161
——Electrical Blue Book, 211
——Electricité Domestique. By G. Mis, 211
——Elektrischen Einrichtungen der Eisenbahnen. By R. Bauer, 1386
——Elektrizitatszahler, Der. By R. Ziegenberg, 1008
——Elektrotechnische Messkunde. By P. B. A. Linker, 370
——Engineering as a Vocation. By Ernest McCullough, 952
——Freezing Point, Boiling Point and Conductivity Methods. By H. J. Jones, 1222
——Growing Crops and Plants by Electricity. By E. C. Dudgeon, 1057
——Hendricks Commercial Register, 573
——Human Factor in Works Management. By James Hartness, 890

*Indicates illustrated articles

251552

Book reviews: (Continued)
——Konstruction, Bau und Betrieb von Funkeninduktoren. By F. & M. Harrwitz, 417
——Krankheiten des Stationaren Elektrischen Bleiakkumulators. By F. E. Kretzschmar, 113
——Law of the Air. By H. D. Hazeltine, 161
——Lehrbuch der Photometrie. By F. Uppenborn and B. Monasch, 211
——Machine Shop Mechanics. By F. H. Colvin, 462
——Magnetism and Electricity. By E. E. Brooks and A. W. Poyser, 1160
——Manual for Engineers. By C. E. Ferris, 573
——Manual of the Railway Signal Association, 520
——Mémoires sur l'Electricité et l'Optique. By A. Potier, 790
——Modern Illumination. By Horstmann and Tousley, 621
——Modern Locomotive. By C. E. Allen, 370
——National Commercial Gas Association Proceedings, 520
——Ornamental Street Lighting, 324
——Practical Mathematics. By C. I. Palmer, 1330
——Primer of Scientific Management. By F. B. Gilbreth, 841
——Prüfungen in Elektrischen Zentralen. By Lehman-Richter, 211
——Questions and Answers in the National Electrical Code. By T. S. McLoughlin, 1057
——Ratgeber für die Okonomische Erzeugung und Verwertung Elektrischer Energie. By A. Prasch, 1330
——Rayons Ultra-Violets et Leurs Applications, 841
——Small Water Supplies. By F. N. Taylor, 1160
——Structural Design. By H. R. Thayer, 734
——Sull' Applicazione dei Parafulmini alle Officine ed Edifizi. By Pasquale Viscidi, 1160
——Tecnia delle Correnti Alternate. By G. Sartori, 1386
——Testing, Fault Localization and General Hints for Wiremen. By J. Wright, 272
——Theorie der Elektrizitat. By M. Abraham and A. Foppl, 1008
——Theorie des Ions et l'Electrolyse. By A. Hallard, 1109
——Toll Telephone Practice. By J. B. Theiss and G. A. Joy, 417
——Torsionsindikator, Der. By Paul Nettmann, 1109
——Traité de Metallographie. By Félix Robin, 790
——Travaux du Laboratoire Central d'Electricité, 1278
——Ubungsaufgaben aus der Gleich und Wechselstromtechnik. By Fritz Hoppe, 1278
——Valuation of Public Service Corporations. By R. H. Whitten, 462
——Wireless Telegraphy and Wireless Telephony. By C. G. Ashley and C. B. Hayward, 1008
Boston:
——Co-operative Information Bureau, 438
——Electric Motor Car Club, 1080, 1247
——Electric show, 595, 693, 736; by Louis Bell, *694
——Electrical construction, 297
Brake drum, Water-cooled. By H. H. Broughton, (D.) 890
Brakes:
——Electromagnetic track, Investigation of, (D.) 572
——Electropneumatic railway. By Turner and Donovan, (D. R.) 368, 672, 1159
——Prony, Self-adjusting. By J. D. Coales, (D.) 416
——Testing. By D. Robertson, (D.) 210
Braking of alternating-current commutator motors. By M. Schenkel, (D.) 571
Braking of series commutator motors. By A. Fraenckel, (D.) 618
Brewery, Electrical equipment. By V. V. Newell, 1111
Bridges:
——Electrically-operated bascule, Chicago, 273
——Swing bridge carried on motor-driven paddlewheel float, Chicago, *1150
British Association for the Advancement of Science, 641
British Municipal Electric Association, (D.) 161, 209
British Municipal Tramways Association, (D.) 839
Brooklyn Institute, Engineering lectures, 808
Bucket for bailing pole holes, *1218
Buildings. (See Central stations; Office buildings; Transmission plants.)
Bureau of Standards, Work of. By G. K. Burgess, (D. R.) 324
Business situation, 435

C

Cable connector. By A. Kastalski, (D.) 415
Cable reel, Largest, Western Electric Co., 676
Cables:
——Armored flexible, Armourduct, *1280
——Fault localization in submarine. By C. E. Hay, (D.) 271
Cables: (Continued)
——Fracture in submarine cable of Great Northern Telegraph Co. By E. Suenson, (D.) 322
——Insulated, Broomfield and Tawn patent, (D.) 1220
——Laying submarine, Hamburg, Germany. By O. Wundram, (D. R.) 621
——Protective covering. By F. Fernie, (D.) 1329
——Semi-bridge duplex system for submarine cables. By J. Kajiura, (D.) *271
——Specifications, Raising the standard of. Method of tabulating requirements. By A. W. Welch, 356
——Substitution of direct current for alternating current in tests. By J. Delon, (D.) *1221
——Testing apparatus and methods, Boston Edison Co., *354
——Tests. By K. W. Wagner, (D. R.) 210
——Thirty-thousand volt, three-phase cable. By W. Pfannkuch, (D.) *1056, 1076, 1107
——(See also Telegraph; Telephone; Wires and wiring)
California Commission news, 88, 139, 653, 765, 868, 987, 1137, 1255, 1362
California public utilities act, 136
California Railroad Commission, Decision in Pacific Gas & Electric Co. vs. Great Western Power Co., 136; Comment, 130
Caloric theory. By H. L. Callendar, (D.) 672
Calorimeter, Bomb. By R. S. Whipple, (D.) 734
Canadian Light & Power Co., Beauharnois Canal, St. Timothe, Quebec, *241
Capacities, Comparison of, at various frequencies. By A. Campbell, (D.) *417
Car lighting. (See Lighting)
Carbon dioxide meters, Uehling, *115
Carburetor, Novel treatment of faulty, 607
Cathode rays, Asymmetry in the distribution of secondary rays produced by X-rays, and its dependence on the penetrating power of the exciting rays. By C. D. Cooksey, (D) 518
Cells, Photo-electric. By J. W. Woodrow, (D.) 840
Central Massachusetts Light & Power Co., 188
Central-station business:
——Advantages and costs of purchased energy. By A. E. Rickards, 609
——Advertising. (See Advertising.)
——Appliance sales:
Demonstration, Jersey City, 1082
Demonstration, Louisville, Ky., 1101
Denver exhibit, *1321
Direct and indirect profits, Springfield, Ill., 1047
Louisville, Ky., *1323
Sales for regular lamp circuits and their effect on load and income. By S. M. Kennedy, *1209; Comment, 1176
Short-sighted campaigns, 879
——Automobiles. (See Automobile business)
——Baiting for the unwary customer, 939
——Baltimore:
Prize contest, 1209
Promptness in connecting new customers, 456
——Bills for lighting, Chart showing why they increase, 512
——Boston Edison Co., Statistics, 609
——Camera for central-station use, 831
——Colleges, Selling electricity to, 455
——Commissions for non-commercial employees who aid sales, Emporia, Kan., 999
——Complaints, Adjustment of, Fond du Lac, Wis., 406
——Complaints on high bills, Reducing, 454
——Consolidations and street-lighting rates, 508
——Contractor and the central station, 185
——Cooking load. By F. M. Long, (D.) 112
——Data sheets for the solicitor, North Attleboro, Mass., 608
——Denver, Bills for Christmas appliances payable Feb. 1, 1269
——Detroit:
Contract routine system, *407
Inspection of newly wired houses, 408
——Discounts, Separation of prompt-payment and quantity, Canton, Ohio, 1267
——Displacing steam power in a group of manufacturing buildings, 778
——Display room at Youngstown, Ohio, *1209
——District heating. (See Heating, District)
——Dollars and factors. By C. J. Russell, 546
——Flatirons:
Chicago, 115, 408
Data on utilization of electric irons, 1176, 1183
Free repairs, Montrose, Colo., 831
House-wiring premiums, 53
Illinois towns, 999
Lawrence, Kan., 999
Sale at fair, Mobile, Ala., 1209
Selling to minimum-bill customers, 941
——Fort Wayne, Ind., 53
——Grill campaigns, 1046
——Heating-device campaign, St. Louis, Mo., 665
——Ice-making. (See Refrigeration)
——Identification cards for line crew, 319
——Income per hp-year from various rates and load factors, 611
Central-station business: (Continued)
——Kansas City, Mo.:
Auxiliary service to telegraph companies, 999
Lighting campaign, *1100
——Lighting of company's office, 53
——Lighting revenue from six Massachusetts stations, 666
——Louisville, Ky., Court decision in relation to competition, 1183
——Manager of utility company and his duties, 778
——Massachusetts consolidation of companies, 188
——Motion-picture theaters, Louisville, Ky., 666
——Motors, Hiring. By H. H. Holmes, (D.) 63
——Newsboys' toast-eating contest, Oklahoma City, 406
——North Attleboro, Mass., Off-peak lighting contract, 610
——Organization in electrical undertakings. By C. M. Shaw, (D.) 112
——Philadelphia Electric Co. secures railway load, 436
——Prize-winning suggestions for improvements in service, Chicago, 567
——Progressive policies in small stations, Alva, Okla., 314
——Railway loads for central stations, 227
——Rates. (See Charging for electric current)
——Rochester, N. Y., Interest in public movements, 454
——St. Louis, Sale of energy to factories on "unrefined" basis, 610
——Salaries of solicitors, Unit schedule for, 940
——Shopworn articles sale, Louisville, Ky., 1047
——Show-window lighting contest, Muncie, Ind., *665
——Sign campaign, 881
——Southern California Edison Co., Appliance sales. By S. M. Kennedy, *1209; Comment, 1176
——Street cars, Battery-operated, as an off-peak load, Billings, Mont. *261
——Toaster campaign in Byllesby properties, 508
——Track switches, motor operated, Boston, *454
——Twenty-four hour service, Perry, Kan., 942
——Wiring campaigns:
Baltimore, Old houses, 103
Emporia, Kan., 779, 1000
Great Falls, Mont., Dull-season campaign, 151
Lawrence, Kan., 999, *1208
Muncie, Ind., House-wiring offer, 719
Old houses. New business campaign by Allegheny County Light Co. By Terrell Croft, *105, *204, *317, *361
Rented house, Campaigns against landlords, 1000, *1208
Rewiring woodworking establishment, 104
Wichita, Kan., 998
——Worcester, Mass., Growth of motor service, 664
——(See also Advertising)
Central-station citizenship. By W. H. Hodge, 151
Central-station practice:
——Balancing three-wire systems, Auto-converter for, (D.) *111
——Bonus award for coal-per-kilowatt-hour record, Des Moines, Ia., *942
——Bus and switch compartments. By E. Bern, (D.) 460
——Clyde Valley Electrical Power Co. By D. A. Starr, (D.) 62
——Combined heating and electric plants. By E. D. Dreyfus, (D. R.) 518
——Combined lighting and power distribution with lighting voltage regulation, Lawrence, Kan., *1052
——Consolidation in electrical systems, Advantages of, 537, 551
——Depreciation of power-plant equipment. By E. Brown, 268
——Direct-current series system (Kurz) in England. By J. S. Highfield, (D.) 62
——Efficiency of power plant as determined by technical education of employees. By L. Shepard, 413
——Equalizing power fluctuations in central stations. By A. Schweiger, (D.) 572, 619, 672
——Gas producers:
Amarillo, Tex., 254
Windham, Ohio. By F. A. Eberwine, 255
——Heating loads for central stations. By A. Rittershausen, (D.) *572; Comment, 538
——Ice-making. (See Refrigeration)
——Interconnection of central stations. Württemberg, Germany. By H. Buggeln, (D.) 209
——Labor costs in central stations, 1024, 1031
——Load factors. By S. A. Fletcher, (D. R.) 887
——Off-peak load, Value of. By A. D. Bailey, 998
——Profitable peak-load service from small water-power, *608
——Railway loads for central stations, 227
——Reactors, Porcelain-clad, *1332
——Regulations of German Association, (D.) 63
——Small electric-light company's problem, 715
——Storage batteries in Chicago, 778

*Indicates illustrated articles.

Central-station practice: (Continued)
——Swiss stations. By Dettmar, (D.) 1160
——Water-power stations, Economy of. By R. Rinkel, (D.) 111
Central-station sales managers, Annual meeting, 296
Central stations:
——Amarillo, Tex., Producer experience, 254
——Appalachian Power Co., on New River, Virginia, Hydroelectric energy for coal fields, *1141; Comment, 1119
——Bellingham, Wash., York Street, *144
——Bergen, Norway, Development of water-power of Samnanger watershed, *1257; Comment, 1241
——Bradford, England:
Financial results, (D.) 1006
History of its stations, *989; Comment, 973
——Canadian Light & Power Co., *242
——Chicago:
Chicago & Northwestern Ry., New passenger terminal, Cost of producing energy, 1205
Chicago Sanitary District, *822
Fisk Street station, Extension, 692
Northwest station, 132; By H. H. Norris, *701; Comment, 690
——Consolidation, Present-day tendency. By J. F. Gilchrist, 566, 590; statistics, 1351, 1353
——Cost of electricity in various stations. By F. Ross, (D.) 1329
——Cost of extension, Amesbury, Mass., 566
——Cost of production in 6500-kw station, 664
——Cost of small system, Hyannis, Mass., 260
——Denmark, Data for 21 rural stations, 1207
——Design of large stations. By G. Klingenberg, (D.) 322, 369, 459; Comment, 435; By I. E. Moultrop, 1097
——East Creek Electric Light & Power Co., on East Canada Creek, Inghams Mills, N. Y., *443
——Eldora, Ia., Variable-head hydroelectric plant, *42
——El Paso Electric Railway Co., Enlargement of station, *349
——England:
Clyde Valley Electrical Power Co., (D.) 111
Poplar electricity supply. Rates of, (D.) 112
Statistics, (D.) 572, 619
——Estacada, Ore., Portland Railway, Light & Power Co. By E. A. West, *94
——France, Water-power plants. By H. Bresson, (D.) 1276
——Germany:
Baden developments. By Emil Frey. (D.) 367
Hydroelectric stations in. By J. Reyval, (D.) 619
Statistics. By Emil Schiff, (D.) 158; 228
——Glasgow, Financial report, (D.) 949
——Greenville, Ohio, *52
——Guayaquil, Ecuador, (D. R.) 518
——Halifax, N. S., Steam equipment, with tests of boilers burning culm, *1089; Comment, 1075
——Idaho Falls, Idaho, Snake River plant, *604
——Italy:
Adamello Electric Supply Co., (D.) 322, 368
Rome, the San Paolo steam turbine station, *303; Comment, 291
Statistics. By B. Lecler, (D.) 270
——Jordan River development of British Columbia Electric Railway Co., *676, *817
——Lexington, Ky., Kentucky Traction & Terminal Co., New turbine plant, *1035; Comment, 1023
——Life of plant, (D.) 1220; Comment, 1177
——London, Deptford station of London Electric Supply Corporation, (D.) *460
——Louisville, Ky., Legal difficulties, 858
——Luzerne County Gas & Electric Co., Kingston, Pa., Electric service in coal regions, *921; Comment, 907
——Massachusetts Lighting revenue, 1911, 666
——Municipal, Results of seven years at Seattle, Wash., 135
——Narragansett Electric Lighting Co., Expansion, 860
——New England Power Co., in Massachusetts and Vermont, *1365; Comment, 1349
——New York City, First station in the world, *480
——New York Edison Co., Kingsbridge station, Third Avenue Ry., 227, *231
——Niagara Falls, Extensions to stations at, 1079
——Niagara, Lockport & Ontario Power Co., Reserve steam station, 1078

Ice-making. (See Refrigeration.)
Ignition of coal gas and methane by momentary electric arcs. By W. M. Thornton, (D.) 1109
Illinois Electric Association Convention, 913
Illinois, Northern, High-tension distribution and unification in. By H. B. Gear, *1095, 1096; Comment, 1076
Illinois public service commission proposed, 1133, 1186
Illuminants. (See Light; Lighting.)
Illuminating Engineering Society:
——Annual meeting, 1245
——Co-operation with British society, 294
——Convention at Niagara Falls, 230, 541, 592, 642, 710
——New York section, 810
——Past and prospective work, 638
——Pittsburgh section, 808
——Primer of illumination, 856
Illuminometers:
——Portable, British design, *675
——Simplified. By Sharp and Millar, *266
Incandescent lamp fixtures:
——Attachment for pull sockets, Hubbell, *325
——Chinaware receptacles, Murphy, *524
——Card connector, Black composition, *521
——Fixture loops, *418
——Hoods for sign work, Reynolds, *1010
——Indirect, Alexalite, *1389
——Interchangeable fixtures, *326
——Locking attachment, *65
——Receptacle, Pass & Seymour, *1058
——Reflectors:
————Magna side reflector, *622
————X-Ray, *622
————Wheeler, *524
——Semi-direct unit, Haskins, *329
——Shop-lighting unit, Delta-Star, *422
——Socket and receptacle for large-base lamps, Pass & Seymour, *421
——Sockets, Angle pull, Benjamin, *1009
——Tungsten, for store fronts, Fort Wayne, Ind., *53
Incandescent lamp resistors. By T. H. Amrine, 33
Incandescent lamps:
——British patent of Peter Cooper Hewitt, (D.) 1276
——Coloring for bulbs, 1226
——Cooper Hewitt diffusing lamp, *542
——Electric properties. By H. Pecheux, (D.) 732; Comment, 691
——Exhaustion of bulbs, (D.) *1158
——High-candle-power lamps, Discussion in Berlin, (D.) 62
——Lambert's cosine law of the emission from tungsten and carbon. By A. G. Worthing, (D.) 270
——Low-voltage metallic filament lamps, Lighting with. By M. Howald, (D.) 1384
——Metallic filaments, Grote and Hoge patents, (D.) 732
——Metallic-filament lamps, Results of many tests. By D. H. Ogley, (D.) 787
——Osram and carbon lamps. By A. Sauquet, (D.) 1006
——Series lighting, Booth patent, (D.) 839
——Specifications for railroad work, 981
——Temperature of filaments, Table. By von Pirani and Meyer, (D.) 270
——Tungsten:
Drawn-wire, Strength of. By F. W. Willcox, (D.) 618
Drawing the wire, (D.) 1276
Filaments on alternating current. By L. W. Wild, (D.) *1054
Infringement suit of General Electric Co. against Laco-Philips Co., 479
Krause filaments, (D.) 367
Parabolic reflectors. By G. H. Stickney, (D.) 1384
Rate of operation and permissible decrease of candle-power, Theory of calculating. By L. Bloch, (D.) 414
Strength and ductility, British patent for improving, (D.) 414
——Tungsten-alloy filament, 1224
——Vacua in lamps. By W. R. Whitney, 28
——Vacuum, Improvement of, British patent, (D.) 321
——Voltages, Standard. By F. W. Willcox, (D.) 1006
Income per hp-year from various rates and load factors, 611
Incubator, Electricity in, Muskogee, Okla., *55
Indiana Commission news, 867
Indiana Electric Light Association, Convention, 977
Indicators:
——Remote-speed, Siemens, (D.) 1057
——Warner automatic watt, 675
Induction:
——Electromagnetic, and relative motion. By S. J. Barnett, (D.) 1276
——Unipolar. By E. H. Kennard, (D.) 63
Industrial management, Art of, 980
Industrial plants, Electricity in:
——Brewery equipment. By V. V. Newell, 1111
——Cider mill drive. By R. B. Mateer, 829
——Comparative costs of motive power for small machines, 753
——Cotton mill, Kolbermoor, in Austria. By H. Beckmann, (D.) 208
——Department store, Engineering and cost data. By E. F. Tweedy, 47
——Displacing steam power in a group of manufacturing buildings, 778
——Dyeing plant, Cost of central-station service, 315
——Machine shop, Worcester, Mass., *1323
——Nut and bolt factory, Indiana Harbor, Ind., *1199
——Paper machines, Electric drive for. By E. C. Morse, 19; J. S. Henderson, Jr., 19
——Paper-mill machinery, Test of power required by. By W. E. Byerts, 567
——Power for small shops. By E. Vollhardt, (D.) 788
——Rolling mill driving. By A. Reisset (D.R.) 839
——Rolling mills, Direct current versus alternating current in, Installation at Fagersta, Sweden, *1045
——Southern Aluminum Co., Whitney, N. C., 755
——Steel mill electrical engineering, Convention discussions, 826
——Steel-mill electrification. By Wilfred Sykes and F. W. Meyer, 1027
——Steel mills, Direct-and-alternating current motors in. By Shorer and Cheney (D.) 415
——Varnish works, Denver, Drive, 202
——Wood sawing, Grand Forks, N. D., 1101
——Wood shop, Omaha, Neb., *1208
Insect destroyers, Electric, *465
Inspection, Municipal electrical, in Chicago, 1029
Institute of Radio Engineers, 540
Insulating cover for cable connectors, Dossert, *678
Insulating material:
——Calculation of insulation covering. By A. Michard, (D.) 518
——Characteristic of an artificial material. By E. Knoblauch, (D.) 324
——Disfico horn insulation, 677
——Molded compounds. By R. B. Lattin, *893
——Rex compound, 66
Insulators:
——Clamp, without tie-wires, St. Louis, *725
——Design and construction, Fundamental principles. By W. Fellenberg, (D.) 159, 369
——Low-voltage glass, Brookfield, *275
——Suspension insulator case, 1300
——Tests of high-frequency. By Imlay and Thomas, *1355
Intake screens, Motor-driven hoist for, Marion, Ind., *722
Interferometry of air-carrying electrical current. By Carl Barnes, (D.) 370
International Association of Municipal Electricians, 475, 482
International Association for Testing Materials, 132, 476
International Conference of Time, (D.) 1278
International Congress of Applied Chemistry, 476, 548 (D.) 620
International Congress of Chambers of Commerce and Industrial Associations, 592
International Congress of Electroculture, 754
International Electrical Congress, San Francisco, 1915, 230
International Photometric Commission, 975, 976
International Radio Telegraph Conference, 84, 180, 182, 639; Proceedings, 648
Interrupter, Connections of electromagnetic, (D.) *1108
Ions from hot salts. By O. W. Richardson, (D.) 112
Ions in metallic vapor flames. By E. N. da C. Andrade, (D.) 112
Irrigation. (See Pumping, Electric)

J

Jordan River power development, *767, *817; Comment, 751
Jovian Congress, 808

K

Kansas Commission news, 88, 1033
Kansas Gas, Water, Electric Light and Street Railway Association, 754, 861
Kelvin, Lord, Memorial to, 182, 342
Kilovolt ampere. By C. W. Eisenmann, 731
Kilowatt as the only unit of power, (D.) 461

L

Labor. (See Employees)
Labor incentive of machinery, 507
Laboratory of radioactivity. By J. Danne, (D. R.) 64

*Indicates illustrated articles.

Lamp post, Central Electric Co., *1060
——(See also Street lighting)
Lamps:
——Counterbalance for drop lamp, Sachs, *892
——Portable electric, Phœnix, *574
——Portable, of Veluria glass, *844
——Reflector for desk lamp, Cassidy, *1387
——(See also Arc lamps; Incandescent lamps)
Lecher system, Vibration of a. By Blake and Sheard, (D.) 416
Legal:
——Bathtub case, Supreme Court decision, 1077, 1078, 1121, 1130
——Canadian Niagara Power Co., 238
——Condit Electrical Mfg. Co., Circuit breaker suit, 1124
——Des Moines gas case, 436
——Enamel insulation, 1299
——Glenwood Springs, Col., Suit to remove rival's lines, 1268
——Lincoln high-tension case, Decision, 387, *391, 436
——Pacific Gas & Electric Co. vs. Great Western Power Co., 136; Comment, 130
——Suspension insulator case, 1300
——Telephone and high-tension lines, Parallel, 87
